

Our activities:

- monthly there is a breakfast for women every first Thursday in the KUGEL, a building for culture and all generations. Every woman is dearly welcome. Besides the very international breakfast menu (everyone should contribute to) information will be given according to topical events. New plans will be made and there will be presentations.
- we organize mother/child-courses for female migrants in order to improve their language skill and social connections
- we accompany refugee families through their daily routine issues
